

OPTIWORK
Improving Disabled People's
Employment Prospects

www.optiwork.org

2007 is the European Year of Equal Opportunities for All. In support of this goal, OPTIWORK is building models of the factors influencing the employment prospects of disabled people.

These models apply to national labour markets, and the ways that employers and disabled people make decisions about employment. The models and tools developed by OPTIWORK enable policy makers to make more informed decisions about employment policies and practices. The models can also calculate the costs and benefits to society, employers and disabled individuals of having more disabled people in employment.

Opti-Work is a Co-ordination Action funded by the European Commission under the 6th Framework Programme, Area 8.1.B.2.4 - Quality of Life Issues Relating to Handicapped/Disabled People. Contract No.: FP6-2003-55P-3
